Class Goal

By the end of this class, you will understand:

- **What CSS is**
- **How to link CSS to HTML**
- **Basic selectors (tag, class, id)**
- **How to style text, colors, backgrounds, and layout**

What is CSS?

CSS is the language used to style and design how webpages look.

- **Colors**
- **Fonts**
- **Spacing**
- **Layout**
- **Backgrounds**
- **Borders**
- **Responsive design**

Ways of adding CSS

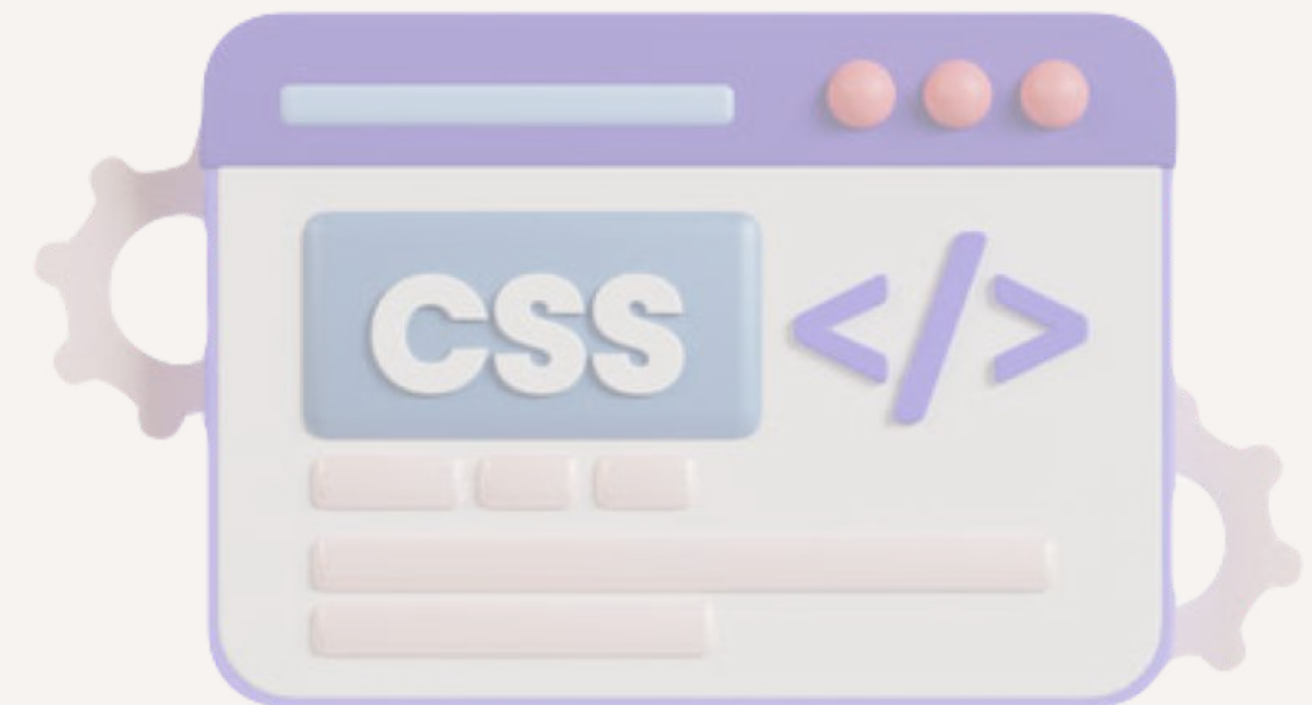

1. Inline CSS — Inside the tag
2. Internal CSS — Inside `<style>`
3. External CSS — Separate .css file

Ways of adding CSS

Inline CSS — Inside the tag

```
<p style="color: red;">This is red text</p>
```

Ways of adding CSS

Internal CSS — Inside `<style>`

```
<style>  
  h1 {  
    color: blue;  
  }  
</style>
```

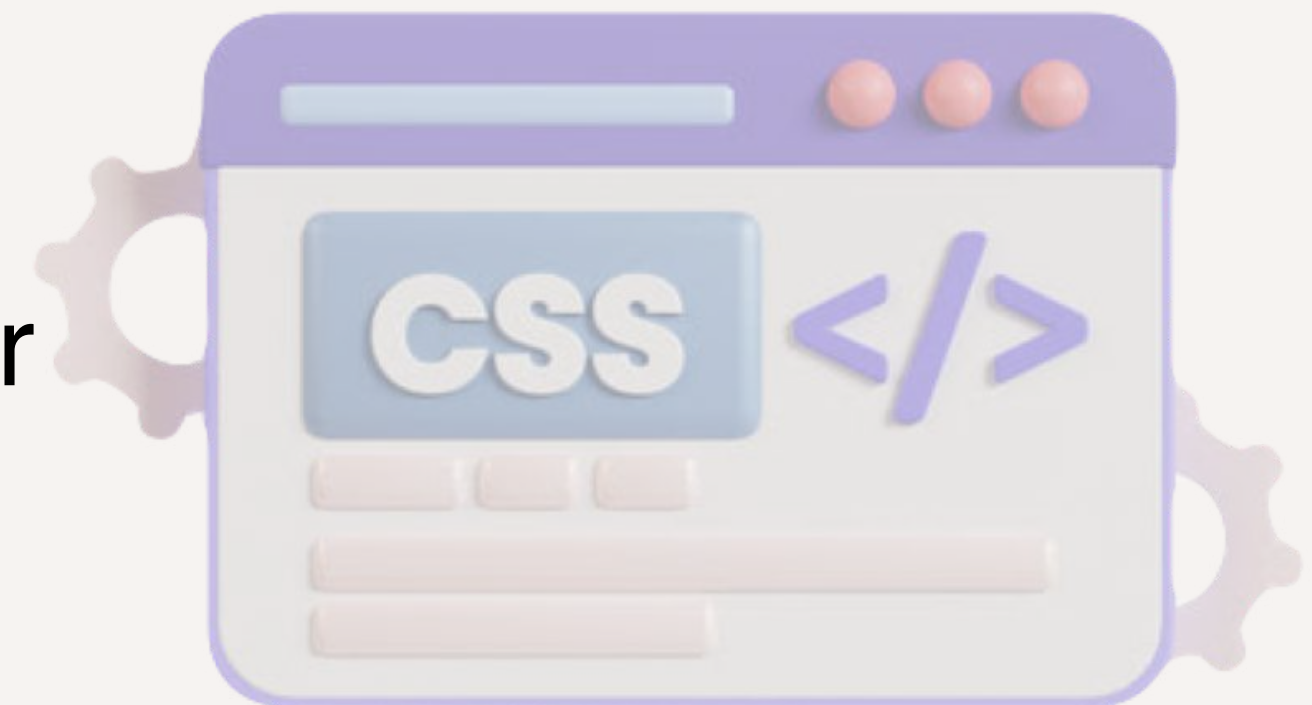

Ways of adding CSS

External CSS — Separate .css file

```
<link rel="stylesheet" href="style.css">
```

this is written in your html file to link it to your external css file

CSS Selectors

CSS selects which elements to style.

Types:

- **Tag selector**
- **Class selector**
- **ID selector**

Tag Selectors

Targets a particular tag

```
p {  
  font-size: 18px;  
}
```

Class Selectors

Targets elements with class =“name”

```
.title {  
  color: purple;  
}
```

Example

```
<h1 class="title">My Portfolio</h1>
```

ID Selectors

Targets one unique element

```
#header {  
  background: black;  
  color: white;  
}
```

Text styling

color: blue;

font-size: 20px;

font-weight: bold;

text-align: center;

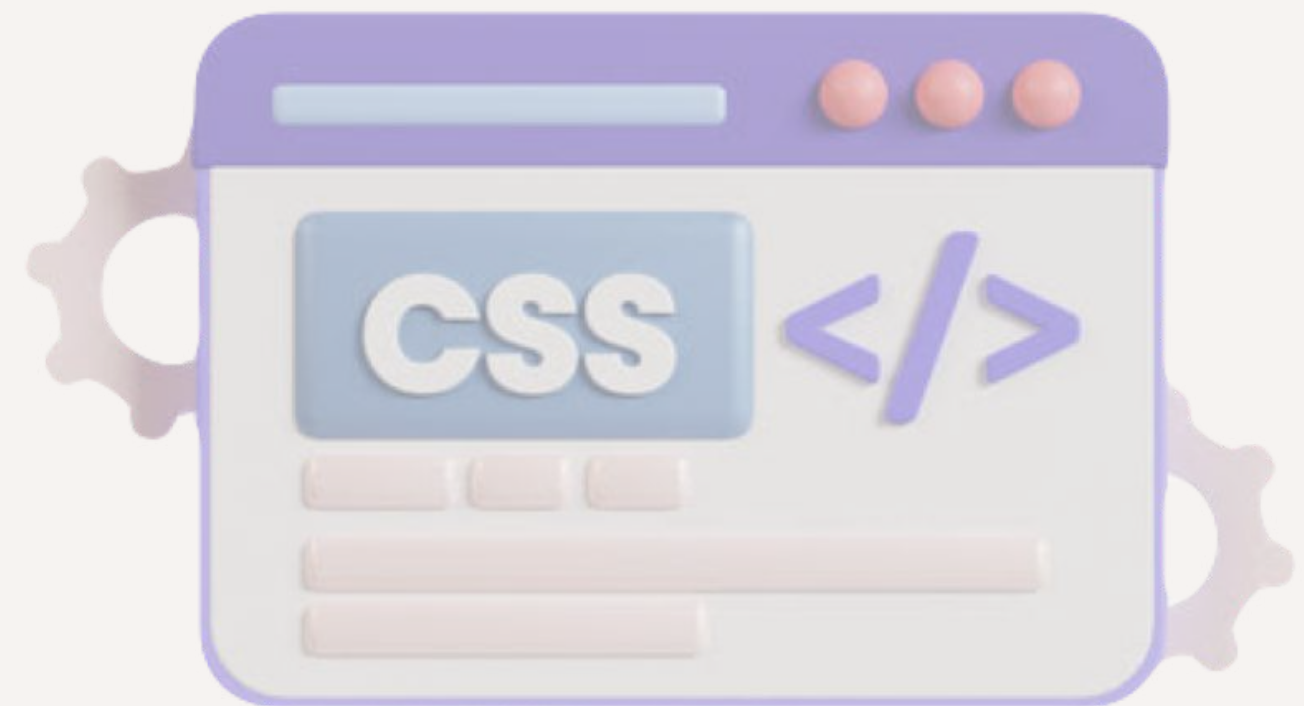

font-family: Arial;

Adding color

Ways to set color:

- Color names (red)
- Hex (#ff0000)
- RGB (rgb(255, 0, 0))

Background styling

```
background-color: black;  
background-image: url("image.jpg");  
background-size: cover;
```

Box Model

Everything in CSS is a box:

- **Content**
- **Padding**
- **Border**
- **Margin**

Box Model

Example

```
div {  
    padding: 20px;  
    margin: 10px;  
    border: 2px solid blue;  
}
```

Let's add CSS to our portfolio

For our body

```
body {  
  font-family: Arial, Helvetica, sans-serif;  
  margin: 40px;  
  background-color: #f5f5f5;  
  line-height: 1.6;  
}
```

For our Headings

```
h1 {  
  text-align: center;  
  color: #222;  
  margin-bottom: 5px;  
}  
h2 {  
  color: #444;  
  margin-top: 30px;  
}
```

For our image

```
img {  
  display: block;  
  margin: 20px auto;  
  width: 150px;  
  height: 150px;  
  border-radius: 50%;  
  border: 3px solid #333;  
}
```

For our paragraph

```
p {  
  max-width: 600px;  
  margin: auto;  
  text-align: center;  
}
```

For our Unordered list

```
ul {  
  max-width: 300px;  
  margin: auto;  
}
```

For our links

```
a {  
  color: #006eff;  
  text-decoration: none;  
  font-weight: bold;  
}  
  
a:hover {  
  text-decoration: underline;  
}
```

Now link it to your HTML

Save as styles.css

Go back to your html file and add

```
<link rel="stylesheet" href="style.css">
```
